Dear Mary,

Hey babe. How are you doing? How are things going back at home? I miss you and the kids so much. America is nice. I really like it here. They treat you nice and you will get paid in money and coupons. Here in South Carolina I do farm work. Work like plowing crops and picking food for the families. Things like cabbage, collards, corn, and potatoes. When you get paid, with the money you can

go to the canteen and buy supplies. Things like chalk, crayons, books, games, playing cards, and Dice. In my free time I like to write, draw, and play games with other prisoners. They are treating me very well. They give me free time, they pay me for my work, and they let me shop like the average American. Well I have to go.  
Sincerely, John
